EDUCATION BACKGROUND

Auburn University

Alabama, USA

Expected degree: Bachelor of Engineering in Structural Engineering

Sep 2019 - Now

GPA:4.0

Main Coursework: structural engineering

Beijing University of Civil Engineering and Architecture

Beijing, China

Bachelor of Engineering in Water Supply and Drainage Engineering

Sep 2016 – Jul 2019

GPA:3.4

Main Coursework: Water drainage engineering

WORK EXPERIENCE

Shenzhen Naying Asset Management Co. LTD

Shenzhen, China

Project (Naying Sunshine POF (Privately Offered Fund)) Partner
2019

Time: June 16th 2019 – August 13th

Project Description: Through this project, we assist dealers in issuing and trading private placement products. The project includes overall scheme design, multi-party communication and connection, fundraising and recording, and product landing in Guo Sen Securities.

- Participated in the whole process of the project, from the design of overall scheme to the landing of the product, coordinated and solved the problems of all parties.
- Combined with market conditions, understood the real demands of the private equity fund managers and assisted them in designing the overall scheme of Naying Sunshine POF under the condition of protecting the interests of the investors and the managers
- Maintained efficient communication with managers in real time, gave feedback to and solved the problems, making sure the project was orderly conducted and the procedures were simplified
- Helped the managers solve the problems that may be encountered in the filing, dealt with the feedback from Asset Management Association of China and assisted with the smooth operation of the project in compliance with laws and regulations

- Guided the manager to open an account in Guoxin Securities Business Department, completed a series of operations like commission adjustment and launch permission of the product, and focused on follow-up service on product operation period

IBD (Investment Banking Department) in CCB (China Construction Bank) Liaoning Branch

Liaoning, China

Project (“Tian Li” Fundraising Project) Assistant (Intern)

Dec 16th 2019 – Jan 20th 2020

- Participated in feasibility demonstration on the market promotion of the project

(The goal of the project is to complete the fixed deposit (RMB500 million) from the community within 30 days)

- Found out the overall trend of the stock market and determined the stock market’s ability to absorb social funds
- Found out the overall trend of the fund (including public offering of fund and private equity) and determined the fund market’s ability to absorb social funds
- Found out the local real estate sales price and the society’s ability to purchase the property and determined the real estate market’s ability to absorb social funds
- Learnt about the society’s ability to accept the fixed-term deposit rate through the branches of CCB

Shenyang Kangfudegao Auto Service Co. Ltd.

Shenyang, Liaoning, China

Volunteer

Aug 25th 2017 – Aug 31th 2017

- Provided transportation support for athletes, news and media staff participating in the national games
- Formulated a detailed transportation plan, including vehicles, drivers, site arrangements and transportation routes

SKILLS

Language Skills: Native in Chinese, Fluent in English

Computer skills: C program, C++ program, MATLAB

HOBBIES

Athletics: started from grade 5; boosted physical fitness and improved attitudes towards life

Playing basketball

Photography: started from 2016; appreciated the beauty of nature; enhance the ability to observe the instantaneous changes of things

CUSTOM QUESTIONS

NOTIFICATION ABOUT SWITCHING PROGRAMS

- * 1. Please carefully read the instructions that appear throughout the application. Once you have begun the application, changing a program will delete a program's content, including recommendations, and it will no longer appear in your application. If you have completed your application, please submit it under the currently selected program and contact our office to make the switch once you have submitted.

Answer: Check here to indicate you have read and understand the above paragraph.

ADDITIONAL QUESTIONS

- * 1. Have you previously applied to a graduate program at Boston University Questrom School of Business?

Answer: No

- * 2. Will you be receiving tuition reimbursement from your employer?

Answer: No

HOW DID YOU HEAR ABOUT US?

- * 1. How did you first learn about the Questrom School of Business?

Answer: From a Ranking Publication

- * 2. Which external sources of information were most influential in your decision to apply to the Questrom School of Business? Please select all applicable answers.

Answer: US News & World Report

- * 3. Which internal sources of information were most influential in your decision to apply to the Questrom School of Business? Please select all applicable answers.

Answer: E-mail from Questrom School of Business

4. Did you view our advertisements in any of the following sources? Please select all applicable answers.

Answer: Boston.com

STANDARD APPLICATION QUESTIONS REGARDING PRIOR ACADEMIC MISCONDUCT

- * 1. Have you ever been disciplined by any college or university for reasons pertaining to academic integrity?

Answer: No

GENDER IDENTITY

1. Do you identify as a member of the Gay, Lesbian, Bisexual and Transgender (GLBT) community?

Answer: No

CUSTOM QUESTIONS CONTINUED

FIRST GENERATION COLLEGE STUDENT

1. Are you a first generation college student? We define first generation as coming from a family where neither parent/guardian completed a bachelor's degree from an undergraduate institution.

Answer: No

CERTIFICATION AND AUTHORIZATION STATEMENT

- * 1. I certify that all the information and statements I have provided in this application are correct and complete. I certify that, as required, I have read all application instructions, and have responded truthfully regarding sources of information related to my college attendance and academic actions taken by a university or other institution. I further certify that all information submitted on my behalf, including letters of recommendation, is authentic. I have read and understand all notices contained in the application and the application instructions informing me of my obligation to provide true and complete answers to all questions.
- I understand that withholding pertinent information or giving false information on this application will be cause for denial of admission to Boston University and any of its school(s), withdrawal of any offer of admission, cancellation of registration, expulsion from the University or any of its school(s) after I have been admitted, or revocation of my degree. I understand that I have an ongoing obligation to inform the Admissions Office of any changed circumstances affecting information I have provided on the application within 30 days of my first notice of such events.
- I have read and understand the Application Deadline Policy of the school(s) at Boston University to which I have applied. I give my permission to officials at all institutions that I have attended to release information requested by any school(s) at Boston University to which I have applied. I understand that my application and materials submitted with my application become the property of the school(s) at Boston University to which I have applied. I understand that the information furnished in conjunction with this application will be treated confidentially and will be disclosed only in accordance with the University's policy governing privacy of student education records.
- I realize that the institution reserves the right to withdraw an offer of admission if I fail to maintain satisfactory scholastic standing for work in progress, final records fail to show completion of courses and/or degrees required for admission, or if there is a change in the circumstances affecting information I have provided on this application.

Answer: Your certification of this statement serves the same purpose as a legal signature, and is binding.

Boston University - MS in Business Analytics
Written Essay

Arguably my motivation on studying Business Analytics closely relates to my understanding of this major in the contemporary world as well as my personal experience. On the one hand, while taking a course relating to the management of public transportation at the undergraduate level, I was required to conduct a project to design the most effective layout of the bus routes in a certain city. However, owing to my lack of professional knowledge pertaining to data analysis, I failed to utilize the most effective business analysis methods. As a result, the course project was not completed with a satisfying proposal. Enlightened by this experience, I feel an urgent necessity of extending my knowledge in business analytics and mastering advanced tools for data analysis before pursuing a career.

On the other hand, with the accelerated development and popularization of big data and information technology worldwide, Business Analytics has become an imperative major that can be applied in a variety of industries effectively. Personally speaking, it is an interdisciplinary subject comprehensively integrating knowledge in mathematics, statistics, computer science, and business principles and laws together. Simultaneously, it has been firmly proved that skills and methods in business analysis is supposed to improve the work efficiency in industries relating to Internet, communications, medicine, and engineering. Therefore, as an engineering student, learning how to apply technical analysis systematically is conducive to the enhancement of my problem-solving skills in real work. Taken together, advanced study in Business Analytics facilitates my career pursuit upon graduation.

I am highly motivated to embark an academic journey in Business Analytics for the reason that I perfectly understand how it benefits my professional development and facilitates my career pursuit. Therefore, I really appreciate the education ideas of Boston University's MS in Business Analytics.

First of all, to become a future analyst, how to utilize data and transform data into effective information is what I need to learn at the graduate level. In this way, this program highlighting the skills that can turn data into action suits me perfectly. Secondly, the program takes learners' career development as the top priority, and provides intensive resources to help learners achieve their professional goals. Combined with the outstanding reputation of Boston University, I shall have opportunities to train myself through real engagement in the industry. Thirdly, the curriculum delivered by this program is experience-driven, attaching great importance to learners' problem-solving skills and hands-on experience. In detail, at the beginning stage, I am able to acquire useful analytical skills for data analysis through courses like Introduction to Programming for Data Science. Meanwhile, the course of Business Analytics Toolbox will allow me to contact with advanced tools that can improve real work efficiency in data analysis. Afterwards, I will have opportunities to

learn about machine learning through a set of modules, which has become a popular subject in the contemporary world. More importantly, underpinned by the various skills and tools I master from the courses, I am supposed to make further progress through capstone projects in the program, in which I am able to gain practical experience and develop my cooperative spirit. Last but not least, the program also pays attention to learners' critical thinking and communicative competence, which is conducive to my well-rounded development.

As a summary, I have solid reasons to believe that the Boston University Questrom School of Business is my best choice to delve deeper into the learning field of Business Analytics. Besides, I am well-prepared to face the challenges and overcome the obstacles at the graduate level.

I have made a clear plan for my future development in order to apply the knowledge accumulated into effective practice and achieve my career goals. In the short term, I long to deepen my understanding in business specialization and expand my knowledge scope in relevant areas. Meanwhile, I am going to join a financial company abroad working as a junior analyst. During the work period, I am supposed to take active part in some major business projects, learning from senior professionals to accumulate precious work experience. In the meanwhile, through participating in real analytical work, I shall get a clearer self-recognition and improve my weakness. With my diligence and perseverance, I will develop my professional literacy and enhance my professional skills, which paves the way for my long-term goals. In the long term, I plan to equip myself with critical thinking ability, advanced analytical skills, as well as the spirit of exploration. Then, I desire to enter a prestigious international business company in China, applying my analytical knowledge into decision-making and management in order to make high profits for the group. Owing to my experience gained from previous work, I am also looking forward to guiding my team efficiently with my leadership skills and management competence.

Boston University - MS in Business Analytics

Optional Essay

In this essay I would like to highlight my academic and professional experience pertaining to business analytics. Arguably I have laid a solid foundation for pursuing an MSBA degree through academic study and work experience. With regard to my academic experiences, first of all, I have a passion for mathematics and a digital sensitivity, which helps me achieve outstanding results in statistics and analytics. Secondly, I undertook optional courses pertaining to business and finance, and read relevant books so as to accumulate basic knowledge and principles in these areas. Beyond school, I have trained myself through internships, in which I have accumulated rich experience pertaining to group cooperation, leadership, interpersonal skills, as well as field investigation. While working in Shenzhen Naying Asset Management Co. LTD as a project partner, I participated in the whole process of the issuance of a new financial product from the design of the overall scheme to the landing of the product, coordinating and solving the problems of all parties. Owing to this project, I fully experienced the complete steps of private equity funds from the establishment to transaction, in which I accumulated rich communicative experience and developed my analytical skills. Moreover, I have further understood the benefits of business analytics in decision-making and other operations.

RECOMMENDATION CONCERNING ADMISSION

I highly recommend this applicant

Letter of Recommendation

To Whom It May Concern,

As Deputy General Manager of Guosen Securities Co.,Ltd, I am pleased to write the recommendation letter to support Mr. BingSen Duan's application for his postgraduate study at your esteemed university.

I got to know Mr. Duan when he came to Guosen Securities Co.,Ltd. as an intern from June 2019 to August 2019. After a two- month internship, I had some understanding of his study ability and working achievement from some contact with him and his team leader's feedback. During his time in the company, Mr. Duan demonstrated a good work ethic and professional qualities. We outlined a scope of work to be completed, and he successfully completed that work in the time required. He practiced his knowledge in mathematical statistics and his programming skills in his work which made contribution to his team. He put in extra hours as necessary to meet specific deadline. Besides, he seemed to have good interpersonal skills with clients and colleagues. His team leader told me that his was a great team worker and always being supportive to colleagues all the time.

During the communication with him, I found that he tried to achieve his goal through actions step by step. He is eager to study business data analysis and work in the America securities company after completing the studies. He conscientiously self-studied relevant knowledge and skills to broaden his horizon. He also caught all the opportunities to take program and internship to learn from seniors in work.

Although Mr Bingsen Duan is just an intern at Guosen, He commanded attention by his integrity, positive attitude, and professional skills. I would like to strongly recommend his as candidate for his postgraduate programme.

Best Regards,

Yong Jin.

RECOMMENDATION CONCERNING ADMISSION

I highly recommend this applicant

I strongly recommend Bingsen Duan for graduate study at BU. I have known Bingsen for 18 months, during which time I taught him *Structural Analysis*, *Reinforced Concrete Design*, and *Prestressed Concrete Design*. He was the top student in the first two courses, and he was the top undergraduate in the third course, which is a graduate-level course. I also served on the review panel for his capstone design project, and I am the coordinator of his undergraduate degree program in civil engineering. Bingsen is currently the top-ranked student in his senior class of approximately 120 civil engineering undergraduates, and he has a perfect GPA.

Bingsen came to us from a 2+2 program with a partner Chinese institution. He immediately stood out from his cohort as a student with a very inquisitive nature and one who was not afraid to positively engage with faculty and his peers. I have enjoyed having him in class for the last three academic terms. Bingsen has a pleasant personality, good attitude, and strong work ethic. Due to his maturity and professionalism, I invited him to work for me as a teaching assistant this semester. As the top student in our engineering program, his analytical skills are top-notch. Our curriculum features many required, hands-on laboratory courses—each with an intensive writing component. In addition, we require many team projects, so Bingsen's teaming and leadership skills are strong. He played an integral analysis and design role on his senior design project team. The team's design was safe, effective, and efficient. I was very impressed with his portion of the team's oral presentation. His spoken English is quite good, but his written English still requires some polishing. I am certain that Bingsen will thrive in your graduate program.

Sincerely,

Robert W. Barnes, PhD, PE, FACI

Brasfield and Gorrie Associate Professor
Auburn University
